## ONLY TWO ROUNDS.

The Third Event in the New Orleans Prize Ring.

DAN CREEDON KNOCKED OUT.

It Only Took Bob Fitzsimmons One Minute and Forty Seconds to Settle the Contest. Fitzsimmons Again Challenges Champion Corbett—Jim Hall Wants to Fight Fitzsimmons.

NEW ORLEANS, Sept. 27.—The glove contest between Robert Fitzsimmons of Newark, N. J., and Dan Creedon, hailing from St. Louis, for a purse of \$5,000, took place in the arena of the Olympic club last night. They fought as middleweights at 154 pounds. Both men are Australians by birth, but Fitzsimmons is now an American citizen by adoption. This was the star event of the carnival and was a match that had attracted more interest than most of the pugilistic events recently.

Fitzsimmons has been so prominently before the public for some years that any match in which he was a participant was bound to create interest throughout the entire country. An additional feature in the importance of the match was the bearing it had to a prospective meeting between Fitz and Corbett. Fitz has been most persevering in his efforts to secure a match with the champion heavyweight and from time to time has been put off with the reminder that he was not in his class. Corbett first named Choyinski as the man Lanky Bob had to whip before he could talk of a match. Fitz took on the match and then he was told by the champion that he would have to go with Creedon to place himself in a position to talk fight.

Comparatively little was known of Creedon by the general public, although the visitors from St. Louis were enthusiastic in their praises of the man. Despite that fact, however, Fitz remained a prohibitive favorite, the poolroom odds being hunted at from 3 to 10 to 1 to 3, while as good as 5 to 2 could be had against Creedon.

When the men entered the ring for the great contest Fitz looked indeed formidable. He was finely drawn and but for traces of prickly heat his skin was as white as a baby's. His enormous shoulders and chest when compared with his narrow waist and hips was particularly marked. His long lithe arms and legs were covered with sinuous muscles that gave every indication of terrible force and speed. His every movement in the ring was like that of a panther watching his prey and ready to spring upon it.

Creedon as he appeared presented a much stockier look and all the lines of his symmetrical body indicated strength and excellent condition. Fitz had something to the good in height and reach, but as he stood with his legs further apart than Creedon it was not so marked as it might have been.

There were probably 5,000 spectators present. The amphitheatre was brilliantly lighted. The ropes of the stakeless enclosure were drawn taut and presented a bright appearance with their red covering, around which was wrapped a golden cord. When Referee Duffy examined the scales at five minutes to 9 there was a hum of pleasure throughout the audience. Creedon was the first to enter the ring, closely followed by Fitzsimmons. Creedon weighed 168 pounds and Fitz 155 1/2.

The seconds for Creedon were: Thomas Tracey, Mick Dunn, Tommy White and Charley Daly. For Fitz, Jack Dempsey, James Dwyer, Kid McCoy and Samuel H. Stern.

After the usual instructions the men advanced to the center of the ring and the fight was on.

First round.—Both men felt each other for an opening. Fitz led. He was short, however, but he forced the fighting and landed a hard right on the head, and Creedon scored a hard body. A moment later Creedon caught a left on the chin and one, two, three on the head. The men had to be separated by the referee. Creedon ducked beautifully from a right on the head.

Second round.—Creedon missed a light left swing for the head, but he landed two rights on the body. Fitz scored two heavy rights and knocked Creedon down with a heavy right-hand on the jaw. Fitz landed heavy right on the jaw and the men had to be forced from a clinch. Creedon received two heavy rights on the jaw and three rights on the body. Creedon was knocked out by a heavy left on the jaw.

There was the wildest demonstration ever seen in the ring.

Referee Duffy awarded the fight to Fitzsimmons, who was loudly cheered. Referee Duffy announced Fitzsimmons' challenge to Champion Corbett. The applause that followed was immense.

The work of Fitz in the second round was the most marvelous ever seen in this section of the country. The three right-handers which Creedon received on the head in one, two, three order, amazed the spectators and dazed the recipient, but they were nothing from an artistic pugilistic point of view compared with the three heavy lefts delivered in the one, two, three order on Creedon's nose, which floored the latest aspirant for middleweight honors, and caused Creedon to fall the easiest prey of all Robert Fitzsimmons' adversaries.

The main fight of the battle was done in the center of the ring, the river sand of which was plowed up more by the footwork of the two men in the actual fighting time, which was 4 minutes and 40 seconds than it was ever before, even all-night battles. Creedon was carried to his corner gasping hard for breath and showing traces of blood trickling

from his nose. He was comparatively unhurt during the first round and went to his corner smiling happily and chatting with his attendants. The inference then is that he was beaten in 1 minute and 40 seconds, the time of the second round.

His seconds and his backers were startled beyond measure, and even those who desired Fitzsimmons' defeat, and there were many, were overawed and full of wonderment at the tall man's marvelous fistic skill.

After the fight was over there were groups and knots of spectators seemingly spellbound in different parts of the mammoth arena trying to explain to each other or to have it explained to them; but it was a fact, for it happened before their eyes in the great Olympic club's arena on Sept. 26, 1894.

President William Schell of the Olympic club, a few hours after Fitzsimmons defeated Creedon, sent the following telegram to Champion Corbett:

"Fitzsimmons has signed articles of agreement to meet you in February for the world's championship for a purse of \$25,000 and a \$10,000 side bet."

Is Corbett Afraid of Fitz?

NEW YORK, Sept. 28.—The World this morning publishes the following telegram from Corbett, dated at Bangor, Maine:

I will say nothing about Fitzsimmons at present. He must meet Steve O'Donnell first before I will notice him.

JAMES J. CORBETT.

Jim Hall Challenges Fitzsimmons.

LOUISVILLE, Sept. 27.—Jim Hall, the pugilist, last night issued a challenge to fight any man in the world, Corbett barred. Hall expresses a preference for a fight with Fitzsimmons.

EVIDENCE ALL IN.

The Commission to Investigate the Chicago Strike Has Finished Its Labor.

WASHINGTON, Sept. 27.—The United States commission appointed by the president to investigate the Chicago strike, consisting of Commissioner of Labor Wright, ex-Commissioner of Labor Kernan of New York, Judge Wortington of Illinois, reassembled at the department of labor in this city yesterday to hear any further testimony which should be volunteered.

Only two witnesses appeared. The first was A. J. Ambler of this city, who claimed that his wife owned the Pullman truck patents, which were the basis of Pullman's gigantic fortune, and who wanted to be heard on questions arising out of this claim, and a local temperance enthusiast. The commission promptly refused to go into these questions.

There being no further witnesses, Colonel Wright, chairman of the commission, then, in accordance with the public notice given, declared the public hearings closed, and the commission went into secret session to discuss the report to be made to the president. It has been decided not to make public anything concerning its nature out of courtesy to the president.

Colonel Wright said yesterday that the remedies suggested from various quarters included every possible cure of existing social and economic conditions, arbitration, licensing, government ownership of railroads and nationalization of lands; less protection and more protection; less education and more education; more silver and less silver, and, in fact, every other theory advanced by reformers.

The commission will probably be in session two days. The report is to state the facts concerning the causes and conditions surrounding the strike and although the commission has no power to condemn either side, Commissioner Kernan suggested that in pointing out any remedies for settlements for future differences the report must necessarily imply, if it does not in terms make, condemnation of one side or the other or both.

MOTORMAN FAINTED.

Runaway Trolley Wrecked and Several People Injured.

PHILADELPHIA, Sept. 27.—While a well-filled open trolley of the Lancaster avenue branch of the Philadelphia Traction company was proceeding out Walnut street, Motorman James Dalan fainted and fell to the floor. The car dashed forward with no one to check its speed and the passengers, many of them women, became panic-stricken.

Police Sergeant McDonald, who was a passenger, rushed to the forward end and shouted to the driver of a car, which was on the track just ahead, to leap for his life. Before the man could do so the railway car struck the car with great force, throwing the passengers about in every direction.

A Mrs. Jackson was the most seriously injured, one leg being broken. Sergeant McDonald was thrown clear over the front of the car and seriously injured about the face and arms. The driver of the car was also badly hurt.

HYDROPHOBIA.

Several People Bitten in Navarro County, Tex.—One Dead.

CORSICANA, Tex., Sept. 27.—Three weeks ago a rabid dog passed through the western portion of Navarro county. A little 13-year-old boy named McAfee was bitten. Tuesday he went into convulsions and has since died a most horrible death.

W. F. Arnold, a prominent gin man of this county, was also bitten, and he came to this city to consult local physicians. He is accompanied by his wife, and they have left for New York or New Orleans, where he goes to place himself under the treatment of the Pasteur institute. After biting seven or eight dogs the mad dog was killed. One of the dogs bitten was shot.

## WEST INDIA CYCLONE

It Visits Several of Our Southern States.

STILL COMING NORTHWARD.

The Wind Reaches a Velocity of Eighty Miles an Hour—Great Damage Done to the Rice and Other Crops—Vessels Unable to Leave Port and Shipping Entirely Suspended.

SAVANNAH, Sept. 27.—The West Indies cyclone which has been approaching Savannah for the last two days, raged here all day and last night. The wind reached a maximum velocity of 60 miles an hour. At Tybee the wind blew 33 miles an hour. The storm seems to have split somewhere south of here and the center passed into the gulf stream. The damage in this section can not be estimated with any accuracy. Grave apprehensions are felt for the rice crop.

No trains have passed north on the Florida Central and Peninsular railroad. A washout on the Savannah and Western Florida, 60 miles west of Savannah, has caused a suspension of travel on that road. No vessels have left in the last two days. The shipping in the harbor has been tied up, and so far no damage has been reported to shipping in this place.

At Charleston.

CHARLESTON, Sept. 27.—The tropical cyclone struck this city yesterday morning and has raged ever since. The maximum velocity of the wind is 48 miles an hour, except at times when it was as high as 55 or 60. As far as is known, but little damage has been done to the shipping in port or in the city proper. The storm tide was only three and a half feet, against 12 feet in the August cyclone of 1893.

Coming North.

ORANGEBURG, S. C., Sept. 27.—A terrible windstorm struck here yesterday evening at 5 o'clock and is blowing at a velocity of 45 miles an hour. Trees and telegraph poles are down; great damage to corn and cotton have resulted. The wind is blowing from the northeast. It is feared the worst is yet to come. No reports from the country.

It Reaches Norfolk, Va.

BALTIMORE, Sept. 27.—A special from Norfolk says: A hurricane with highest sea ever seen off Cape Henry, wind blowing 40 to 50 miles an hour; vessels are warned not to leave port by the weather bureau. Passengers are leaving steamers and continuing their journey by rail.

MRS. STANFORD AND STRIKERS.

She Has Appealed to Officials in Their Behalf—No Contributions.

OAKLAND, Cal., Sept. 27.—T. J. Roberts, president of the American Railway union, recently wrote to Mrs. Leland Stanford in behalf of the strikers, who had been reduced to destitution on account of their inability to secure work. He has received an autograph letter from Mrs. Stanford in reply, regretting that it is not in her power to relieve the distressed strikers.

She expressed her "obligation" to the gentlemen who escorted her from the mountains to Oakland, and says she sympathizes with the strikers, who she knows were led away by excitement, and did not expect to do the company wrong. Mrs. Stanford says she has made application to the railroad officers to replace the men dismissed for conduct during the strike, but regrets that her entreaties have been ignored. She hopes that in time the men will be restored to their places, and promises to continue her influence in their behalf.

Cowboys and Indians Fight.

WICHITA, Kan., Sept. 27.—A pitched battle occurred in the Cheyenne country, 40 miles west of Hennessey, O. T., yesterday, between cowboys and Indians. A band of cowboys came upon a band of Indians who were stealing cattle, and hot words ended in an open fight. Two Indians named White Bull and Wolf Robo were killed, and two cowboys named Bill McKinney and Ralph Eastman were wounded, the latter fatally. The cattlemen are said to be collecting the cowboys from the surrounding ranches to follow the Indian band who are still in possession of the cattle.

Brakeman Fatally Injured.

MIDDLETOWN, O., Sept. 27.—J. C. Harper, a brakeman on the Big Four local freight going north, was struck by a low bridge near Monroe and knocked off the car on which he was standing while the train was going 30 miles an hour. He was picked up and carried to this city. He is not rational and can not give his address. Conductor Langdon says he resides on Walnut Hills, Cincinnati. He is about six feet high, black hair and light mustache and a very prominent nose. He is injured on the head and chances are that he will die.

Work of Ghoul.

NEW YORK, Sept. 27.—Grave robbers have been operating in the cemeteries near Union Hill. Last night two vaults were found to have been opened in Grove Church cemetery and the bodies removed. Other graves close by had been opened, but it is not known whether they had been rifled or not. The authorities are investigating.

Glass Works Damaged by Fire.

BUFFALO, Sept. 27.—Fire damaged the stained glass works of George, Harries & Company, Pearl street, to the extent of \$50,000 last night.

HOCKING VALLEY MINERS.

They Are in Sympathy With the Railroaders and May Strike.

COLUMBUS, O., Sept. 27.—There will be a massmeeting of the employees of the Hocking Valley railway and miners at Nelsonville and Jobs to ratify the proposition of a number of miners at their Monday night meeting to refuse to mine any more coal until President Waite of the Columbus, Hocking Valley and Toledo railway, reinstates about 40 employees who have been discharged in the last 10 days.

It looks as though the railway employees and the miners would again strike. There is little doubt that at the massmeetings a strike will be decided upon.

President John McBride has not been consulted, and is very much displeased with the proposed action. He says Mark Wild, of the railway employees, is putting all the burden of righting the railway employees' wrongs upon the miners. It will be time enough for the miners to strike to aid the railway men after the railway men have struck themselves. He will not attend the massmeetings in the valley, not having been invited to do so.

He says he will let them go ahead, and, when they have inaugurated the strike, he will go down and make short work of it so far as the miners are concerned. The fact is, however, that A. A. Adams, president of the Ohio Miners' association, between whom and President McBride there are strained relations, is much stronger with the Hocking Valley miners than McBride. It is understood that a scheme is now working to make Adams the president of the national mine workers' organization in place of McBride. There is a bitter feeling between the leaders.

OWENS' OPPONENT.

Judge George Denny, Jr., Unanimously Nominated by the Republicans.

LEXINGTON, Ky., Sept. 27.—Judge George Denny, Jr., was unanimously nominated yesterday by the Republicans of the Ashland district to oppose Owens in the race for congress. Nothing sensational occurred until the judge made his speech of acceptance. After thanking the convention for its unanimous action, he said, in part:

"Glancing over the history of the grand old district we find it has been represented in congress by great and noble men. Your present congressman I consider the superior of any of them, and, in my judgment, is today the best equipped man in Kentucky or elsewhere. They may say what they please about him, but he is the most eloquent man in the country today."

Train Held Up.

GALVESTON, Sept. 27.—The Santa Fe express arriving here this morning was held up at a water tank south of Temple at 1 a. m. The two men ran the fireman and Engineer George Frank off the engine. They evidently had confederates who were expected to rob the train, but the confederates were either at the wrong place or there was some misunderstanding. The fireman broke away from the robbers and reported the case to Conductor H. Weller. Meanwhile the brakeman came up and the robbers believing he was the advance picket of a rescuing train crew, jumped from the engine and fled.

Disastrous and Fatal Fire.

FAYETTEVILLE, Ark., Sept. 27.—One of the most disastrous fires in the history of Fayetteville occurred here last night. Baum Brothers' mammoth establishment, E. B. Harrison's hardware store, J. D. Williams' store and W. F. Thomas's grocery store, are all a mass of ruins. By the sudden collapse of the Harrison building Arthur Allen was instantly killed, Gordon Gee mortally injured; William Hodge, jaw broken and legs badly injured. Several others were more or less seriously injured. The total loss by the fire will aggregate \$150,000.

Village Destroyed by Fire.

GALLIPOLIS, O., Sept. 27.—The village of Chambersburg, this county, was almost gutted by fire. L. E. Martindill's general merchandise store and building, Pension Examiner Dr. W. J. Fletcher's store building, two dwelling houses owned by Gomer Jones and several barns were destroyed. Loss, \$15,000; insurance, \$1,700. The fire originated from oil in rags in Martindill's storeroom.

Argument in the Debs Case.

CHICAGO, Sept. 27.—Arguments in the Debs case were continued yesterday, Attorney Bancroft speaking for the Santa Fe railroad and Attorney Clarence Darrow for the defense. Judge Woods warned the attorneys that their arguments must all be in next Friday and declared he would hear none after that date.

White Cappers Sentenced.

ABERDEEN, Miss., Sept. 27.—Yesterday Judge Cayce sentenced Van Roper and Ed Peters to five years each and James Nelson to two years at hard labor, all white men, for White Capping. The offense they committed was whipping Mrs. Roper and Mrs. Cullen and threatening to hang them.

Monument to John Brown.

ST. PAUL, Sept. 27.—There was incorporated here yesterday the John Brown Monument association, to build a monument over the neglected grave in Essex county, N. Y., of the hero of Harper's Ferry. The incorporators are wealthy and leading Afro-Americans.

Rumors of Another Battle.

SHANGHAI, Sept. 27.—It is reported that the native officials here received news last night that the Japanese attacked the Chinese forces at Anchow and Yichow simultaneously, and were repulsed at both places.

## WELLMAN AT HOME

The Great Arctic Explorer Arrives in New York.

INTERVIEWED ON HIS ARRIVAL.

He Gives an Account of His Travels, Trials and Troubles Among the Tebergs in the Arctic Region—He Is Already Making Preparations For Another Expedition Next Year.

QUARANTINE, N. Y., Sept. 27.—The steamship Spree, which arrived at Quarantine last night, had among her passengers the following named gentlemen belonging to the Arctic expedition: Professor Walter Wellman, Professor C. B. French of the coast and geodetic survey of Washington, who was astronomical observer of the party; Dr. Thomas B. Mohun, medical officer, and Charles C. Dodge, artist and photographer, all of whom belonged to Washington.

They left here last March bound for the north pole via Norway and have been gone a little over six months.

Professor Wellman, who was in charge, gives the following account of the expedition:

On the 1st of May they left the town of Tromsø, in Norway, on the steamer Ragnvald Jarl, with 25 persons all told, 10 of whom belonged to the expedition and nine to the crew. We reached Spitzbergen on the 7th day of May, latitude 79.45, depositing a large quantity of provisions, leaving in charge Professor Oyen, a Norwegian geologist, who was to study the glaciers.

May 10, finding open water on the north coast of Spitzbergen, the steamer was headed for the southern island, 150 miles to the northeast. After several battles with the ice, we reached Table island on the 12th of May and were then in latitude 80.50, or within 550 miles of the north pole, within 150 miles as far as had been reached by the Lockwood and Brainard expedition. Thus far had we advanced in 11 days from civilization, having covered as much ground in that time as other expeditions had in months or even years.

Up to this time the season had promised to be a favorable one and we had hoped in a few days to be able to set out on our journey over the ice pack to the northeast. Storms now set in on the 15th and vast quantities of broken ice went drifting past. On the 17th the steamer was forced to the north, a little past the 81st parallel, and was then driven back by the floating ice, through which no steamer, though she were as large as the "Spree," could have forced her way.

Finding what appeared to be a perfectly safe anchorage on the shore of Walden island, the expedition left the ship on the 24th of May. We were 14 men, having three aluminum boats, five aluminum sledges and 45 draft dogs from Belgium. Our course was to the eastward, skirting the northern shore of Northeastland, where the ice, though exceedingly rough in places, was yet practicable as a road. Four days later, we received word by messenger that the ship had been crushed by the ice, fortunately most of the stores being saved.

Notwithstanding this loss of the ship which cut off our line of retreat, we decided to go on. After exploring most of the coast of the Northeastland, we found the ice thrown up in hopeless confusion in every direction. We made an effort with one boat and a picked crew of eight men to advance to the north, but so rough was the ice, that after four days of indescribable effort we found we had advanced less than four miles. The same conditions of ice existed as far as the eye could see. Further progress being impossible we made our way back through many dangers and difficulties to Walden island, often wading in water up to our waists. One member of the party, Mr. Alme, the meteorologist, broke his leg. Mr. Alme had to be dragged in the boat over the ice and snatched.

No change occurring in the extremely unfavorable nature of the season which might give us an opportunity to still work farther north, we set out on Aug. 4 to fight our way through drifting ice to the mainland of Spitzbergen and in this we were successful. After a hard struggle of four days we reached Low island and there found a Norwegian hunting sloop, the Berentine, which we hired to carry us back to our headquarters at Dunes island. After that we went to Norway, where we arrived on the 15th of August.

Professor Wellman looks well and hearty and is already making plans and preparations for another expedition next year.

Will Not Pardon Him.

ROME, Sept. 27.—The appeal of Paolo Laga, alias "Marat," the Italian anarchist sentenced to 20 years' imprisonment for attempting to assassinate Premier Crispi, on June 10, has been rejected. Laga tried to kill the premier by firing at him with a revolver while he was being driven from his home to the chamber of deputies.

Celebration Ended in a Row.

DELAWARE, O., Sept. 27.—A party of young men purchased a barrel of hard cider and hid away to the woods on the Depp farm. Their celebration ended in a big row, in which W. W. Willis was badly cut about the forehead and face.

Overdose of Headache Powders.

MOUNT VERNON, O., Sept. 27.—Ex-Sheriff John Fowler died here from the effects of an overdose of headache powders. He was one of the most popular men in the county, and leaves a wife and two children.

Generally fair weather; warmer.

The New York Republicans in their platform denounce the income tax as a "tax upon prosperity." Oh, no. It's a tax upon what one has and not upon what he consumes.

"Elect us to Congress," say the Republicans. "We can't do any harm because the Senate and the President won't let us." The best plan is not to give them any chance at all to do harm. Just keep them out of Congress.

McKinley's speech at Indianapolis in behalf of the old exploded humbug of high protection was a prostitution of human intelligence and a slander upon eternal truth, pertinently remarks the Covington Commonwealth. And the worst feature of it is that the big crowd of suckers who were present swallowed every word of it.

PRESIDENT HAYMEYER, of the sugar trust, has issued an order closing down at once one-half of the refineries under the control of the trust. The other half will be shut down next week. This action is taken because of the large quantity of refined sugar on hand.

The trust wants to cut down the quantity and then put up the price. And then our Republican friends will exclaim, "See what the tariff has done."

The heretofore Democratic sugar planters of Louisiana have come to the conclusion that protection is not a fraud and have flocked over to the Republican party. This is the solid South, too.—Flemingsburg Gazette.

It took \$30,000,000 or \$40,000,000 to convert them, and this was all paid out of the public treasury under Republican laws. The "protection" they're after is the \$10,000,000 or \$12,000,000 bounty they were drawing under the McKinley bill annually. And this immense sum was being paid out to 500 or 600 sugar growers and the rest of the people of the country were being taxed to pay them.

## WEEKLY CROP REPORT.

What the State Weather Bureau Says of the Outlook—Conditions Beneficial.

The average temperature of the week was very near the normal for the season. Scattered showers fell during the early part of the week, appearing to have been heaviest and most frequent in the eastern and northern sections of the State. These conditions were generally beneficial to all crops still in the fields and were highly favorable to the progress of farm work. Much fall plowing has been done and the sowing of wheat has commenced with indications that a large acreage will be planted.

Great progress was made during the week in the cutting of tobacco, and the early planted portion of the crop is nearly all housed in good condition. The backward weather early in the season caused many fields to be set very late and it is probable that they will be exposed to damage from frost before maturing. Nearly all reports agree as to the fine quality of the crop, but the acreage appears to be less than that of last year.

Corn is maturing very rapidly and in many sections cutting has commenced. The work will be under full headway during the coming week. The crop is very heavy in the river bottoms but is rather light in the upland districts.

Fall pastures are reported to be generally fine and in consequence live stock is in excellent condition.

Late potatoes promise a good yield.

## THE SENATORSHIP.

Interest Increasing in the Prospective Contest For Senator Blackburn's Seat.

The prospective contest for Senator Blackburn's seat is attracting more attention than usual just now on account of the activity of Senator Blackburn and Congressman McCreary, says a special from Frankfort. Some politicians think the Senatorship is likely to be a bone of contention in the State Democratic convention next year. The Illinois plan of nominating candidates for Senator may be proposed. The plan was first suggested in this State by Judge W. M. Beckner, of Winchester, in an article in the Courier-Journal some time ago, but all of the candidates have studiously avoided committing themselves either for or against any action by the State convention.

The Senatorship will undoubtedly be a leading issue in each county next year. A suggestion on this subject was made by ex-Senator James S. Wortham. Mr. Wortham said it was a foregone conclusion that the people desire a popular election for Senator, in order to avoid the possibility of making the Senatorship the only issue in the election of State Senators and Representatives, it would be better to open a separate poll on the day of election of members of the Legislature, and let the people vote directly for their choice for United States Senator. The successful candidate for the Legislature in this way would be instructed to vote for the Senatorial candidate having the highest number of votes.

### Aikman-Pickrell.

Flemingsburg Gazette: "The Merchants Hotel parlors were the scene of a quiet and happy wedding last Thursday afternoon at 3 o'clock. The contracting parties were Mrs. M. Pickrell, of this county, and Mr. Robert W. Aikman, of Maysville. The groom in company with his sister, Miss Bettie Aikman, his brother, Joseph Aikman, and James Kerr, came up from Maysville that morning, in a hack, and carried out the arrangements as they had been made. Rev. W. T. Roland performed the ceremony, immediately after which the couple left for Maysville, where they will reside. The bride was the widow of Henry Pickrell, deceased, formerly proprietor of the Gazette, and the groom is a prosperous young blacksmith of Maysville."

If you want a programme of the Germantown fair address the Secretary, J. A. Walton, Germantown, Ky., or call at the BULLETIN office.

A FINE line of goods most suitable for bridal presents can be had at P. J. Murphy's, the jeweler, at most reasonable prices. Before buying your bridal presents don't fail to see his stock and learn prices.

ANDREW JONES, a young farmer of Bentonville, back of Aberdeen, fell from the top of a barn, where he was hanging tobacco, to the floor, a distance of eighteen feet. His left side was crushed in, and he sustained bruises which will probably cause his death.

THE marriage of Mr. Ferd Hechinger and Miss Hattie Oridge will be solemnized this afternoon at the home of the bride's sister, Mrs. Simon Newell, of Mt. Adams, Cincinnati. Mr. Hechinger is the youngest son of Mr. D. Hechinger, the well known clothier, while his bride is a daughter of the late Thomas Oridge, and is an accomplished young lady who has a host of warm friends in this city and county.

FLEMING News: "The people will not allow Republican calamity howlers to pull the wool over their eyes this year. Sam Pugh is either an ignoramus or a demagogue poorly masked when in the face of an upward market he declares that the wool and sheep trade is hurt by the new tariff law. The farmer is read up on that subject, and has some dealings in that line, and he knows for a fact that wool is steadily improving in price."

## The Old Friend

And the best friend that never fails you is Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. HARRISON J. DOWNS, who was convicted last January at Georgetown, O., of bigamy and sent up one year has been pardoned by Governor McKinley. He was married in Kentucky in 1863, but did not get along well with his wife, and after a few years left her and went to Ohio. After a time he went back and tried to effect a reconciliation, but she informed him that she had got a divorce, and was married again. Relying on this he returned to Ohio, and on May 25, 1892, married Geneva Smitson. Ten years later, when he was prosperous and had a happy family, a neighbor who had a pique at him, and knew that his first wife was in fact never divorced, inspired the prosecution.

## A BIG CROWD.

### The Court House Not Large Enough to Accommodate the People Last Night.

#### Auspicious Opening of the Campaign. Eloquent Speeches by Senator Blackburn and Others.

The Democrats opened the campaign last evening with a rousing meeting at the court house.

The attendance surprised many. The large room was packed to the doors, aisles and all, and a large number of people had to be turned away.

Many ladies graced the occasion with their presence. The seats reserved for them were all taken and several had to occupy chairs in the aisles.

Haucko's Reed and Brass Band entertained the audience with a number of selections previous to the speaking and at intervals during the evening.

Viewed from every standpoint it was a most auspicious opening, and the Democrats should now continue the good work until the fight is ended in November.

Senator Blackburn, General Hardin and Congressman Paynter were the speakers of the evening. Senator Blackburn and General Hardin were just back from Brooksville, where both spoke in the afternoon and were tired out with their long drive, but both delivered telling speeches, their remarks being frequently applauded.

J. N. Kehoe, Chairman of the Executive Committee, introduced the speakers. General Hardin spoke first, devoting his time to a discussion of the tariff and money questions. Senator Blackburn followed, devoting his time largely to a discussion of the work of the last Congress, and enlarging upon the principal measures passed by that body. Congressman Paynter closed the speaking of the evening.

Senator Blackburn in his remarks said some Democrats were too impatient. They wanted their party at one session to correct all the evils of thirty years of bad Republican legislation. They had made a good start in that direction, had wiped out the infamous Election law and the Sherman silver law, had repealed the McKinley bill and enacted a law in its place that would lift \$380,000,000 annually from the shoulders of the people; and in addition had effected a big saving in the expenses of the Government. He claimed that the new tariff law is a better measure from the Democratic standpoint than either the Morrison and Mills bills were, and all he asked was a fair test of the measure, and if the country didn't prosper under it then let it give way to something better. The speaker then compared the condition of Uncle Sam's Treasury at the close of Cleveland's first administration and Harrison's administration, in his own telling way. The Democrats had turned over a surplus of \$137,000,000, but this had all disappeared before the close of Harrison's term, and Mr. Harrison's Secretary of the Treasury had even had the plates prepared for a bond issue to replenish the depleted treasury.

Senator Blackburn closed with a strong appeal to Democrats to remain loyal to their party in this period of its trial, and urged all to get together and present a solid front at the approaching election.

#### The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

#### The Last Chance.

From now until October 1st will sell, regardless of cost, anything in my stock, dry goods, notions or fixtures, or will close out in bulk at a bargain. All good, staple goods. Well assorted. Remember the place, No. 117 Sutton street, Maysville, Ky.

NEXT TUESDAY, OCT. 2.

Last Year's Registration Has Expired.

There is only one Registration day, and that is next Tuesday,

Between 6 a. m. and 9 p. m.

THE Mt. Olivet fair opens to-day and closes Saturday.

REV. MR. POWELL, late of Urbana, O., is the new pastor of the Ripley Baptist Church.

MR. G. H. BRODT, Superintendent of the shoe factory, has been on the sick list for several days, but is able to be out again.

COL. W. C. P. BRECKINRIDGE has decided not to remove to New York for the practice of law, as he was reported to be thinking of doing. He will remain in Lexington.

THOMAS HAYSLIP's store at Lynx, Adams County, was burglarized this week, the thieves securing a lot of clothing, boots, tobacco, some valuable documents and some cash.

EVANGELIST B. FAY MILLER is engaged in a revival at Frankfort. This will close his work in the West for some time, as he has accepted a call to one of the leading Presbyterian churches at Albany, N. Y.

THE Vanceburg newspaper correspondent has that bear killed already. Jim Bloomfield did it with his big gun, but as this bear was killed on Blue Lick creek, it may not be the one seen on Indian creek.

WARNER GILBERT, colored, charged with petit larceny, was held for further trial, at his preliminary hearing before Squire Grant, and yesterday he pleaded guilty to the charge before Judge Phister and was given thirty days in jail.

FRANKFORT CAPITAL: "Those who are talking about the Ninth being a close district are thinking about the old times and evidently do not know what a hustler Hart and his friends are. He already has his race won by a big and safe majority."

A DAUGHTER of Mrs. Belle Wells, of Helena Station, died this week and was interred at Flemingsburg. The little girl was in school the day before her death and died after a brief spell of dysentery, occasioned by eating ice-cold watermelon.

FLEMING News: "At the barbecue last Thursday we had the pleasure of meeting Frank P. O'Donnell, Democratic nominee for County Attorney in Mason. It is our opinion if Mason don't roll up a big majority for him in November she will have treated a nice, clever gentleman very badly."

A PETITION has been filed in the Kenton Circuit Court at Covington by three Republicans, asking the court to set aside the apportionment of the State into Appellate Court districts by the Legislature of 1891-3. Their ground is that the apportionment does not comply with the constitutional requirements as to equality in population.

LOUISVILLE POST: "One of the brightest young newspaper men in the State is Mr. Harry Giovannoli, of the Danville Advocate, who began his life work with that paper as 'Devil' about twelve years ago. Mr. Giovannoli has filled every position on the paper, and is now news editor of the Advocate and correspondent for a large number of city papers."

GEORGE W. HATTON, the colored preacher and politician, attempted suicide at Winchester this week by taking morphine. His church had dismissed him and he was despondent. The Republicans of this district ought to have given him a job to help Judge Pugh out. They had him here a few years ago, making speeches for Major Burchett.

THE State Railroad Commissioners will meet at Frankfort next Monday to begin their annual assessment. It will require about two months' time in which to do this, their report being due December 1st. Heretofore the Commissioners have assessed the railroad property of the State, making a tour in a special car. This year it will be done in a different way. The State has been divided into districts, and each of these three Commissioners will look after the work in his district.

## HILL WAS THEIR CHOICE.

New York Democrats Unanimously Select the Senator For Governor.

SARATOGA, Sept. 27.—The Democratic state convention was called to order by Senator Hill at 1:50 p. m. The committee decided in favor of all the sitting delegations except in the case of Monroe county. In that instance the representation is divided equally between two delegations, each being given a half vote.

The platform holds the Republican party responsible for the financial and industrial ruin which has overtaken the country; indorses free raw materials; declares repeal of the Sherman law will maintain a constant parity between gold and silver; commends the repeal of the federal election laws; reaffirms the declaration of principles contained in the Democratic national platform of 1892, and reiterates the expressions of recent Democratic state platforms in favor of honest money and economy in public expenses.

When the time for the nomination of candidates for governor arrived Galen B. Hitt took the floor and named John Boyd Thatcher. An Allegheny man placed Senator Hill in nomination. Hill declined, but Bourke Cochran seconded the nomination and the rollcall proceeded. Senator Guy attempted to stampede the convention for Hill, and great enthusiasm ensued.

The rollcall resulted in Hill being nominated unanimously.

Delegates rushed for the stage and shouted for recess so as to forbid Senator Hill from refusing. The leaders, however, opposed adjournment on the very same ground, and finally the convention went on with its work.

Lieutenant Governor Sheehan then arose, and in a brief enigmistic nomination of Hon. Daniel N. Lockwood of Buffalo for the office of lieutenant governor. The nomination was made by acclamation, amid great applause.

James D. Bell of Brooklyn named Judge Gayner for judge of the court of appeals, and the convention named him by acclamation.

The usual resolutions were adopted. The move to adjourn was carried, Senator Hill saying: "The convention that is running itself wants to adjourn—I declare it adjourned."

## CARRYING FOREIGN MAILS.

The Postmaster General Has a Conflicting Question to Settle.

WASHINGTON, Sept. 27.—The post-office department will have an interesting question to determine when the time arrives for complying with the law and beginning of the contract with the American line of steamers for carrying foreign mails. At present the American line sails only the New York and Paris mail-carrying ships. Within a year the St. Louis and St. Paul will be added to the fleet and a fast mail-carrying vessel of this line will leave New York for England every week. Now the mails are assigned to the vessels which will get the mails to London the quickest. The superintendent of foreign mails in Washington averages the time by different vessels on the three last trips and to the vessel which performs the speediest delivery the carrying of the mail abroad is awarded. Sometimes a difference of three minutes in the time has given a vessel the mail in preference to another vessel sailing at the same time.

The New York and Paris get \$1.60 per pound for carrying letter or first class mail and the foreign vessels 44 cents per pound for mail of the same kind. On second class matter, such as newspapers, the American liners get eight cents a pound and foreign ships 4-1-2 cents. When the new contracts go into effect the American line will get \$1 per mile for carrying the mails. It will not make any difference as to the amount carried. It has not been determined, and will be a question for the department to decide, whether all mails destined for England shall be held for the American liners or will be sent on foreign ships with a view to their more speedy transmission. If a ship of the American line was not to leave until the last of the week, while before its departure one or more speedy ships of foreign lines were to sail, there will be a great demand to have the mails carried by those ships which will carry them abroad much sooner than the contract ships.

## VESSELS COLLIDE.

A Steamer and Schooner Go Down in Lake Huron.

DETROIT, Mich., Sept. 27.—The steamer Ohio, down bound, collided with the schooner Ironton, up bound, in tow of the steamer Kershaw, 10 miles north of Presque Isle, Lake Huron, at 12:30 o'clock Wednesday morning and both boats sank in half an hour.

The crew of the Ohio, excepting the first mate, 16 in number, got into the lifeboats after much difficulty, and were picked up by the schooner Moonlight, also in tow of the Kershaw. The first mate of the Ohio was picked up by the Kershaw after clinging to a ladder for two hours. The steamer Hobard picked up two of the crew of the Ironton. The remainder of the crew, seven in number, are missing, but may have been picked up by the Kershaw.

The crew of the Ohio were landed here, and the two members of the crew of the Ironton were taken to the Soo. The wind was blowing a gale from the south, and a heavy sea was running. Just before the collision the Ironton parted her tow line, and it is thought the accident threw her out of her course and caused the collision. The Ohio was loaded with flour and feed from Duluth to Ogdensburg. The Ironton was light, Cleveland to Marquette.

The crew and officers of the Ohio refused to talk about the collision. The Ohio is owned by Elphicke of Chicago, was built at Huron in 1875, is of 851 net tons, and rated A2, and was valued at \$38,000. The Ironton is owned by Cleveland vesselmen. She was built at Buffalo in 1873, rated A2, and was valued at \$18,000.

## Cash in the Treasury.

WASHINGTON, Sept. 27.—The cash balance in the treasury yesterday was \$128,500,015, of which \$38,004,050 was gold reserve.

## SAVED THE PASSENGERS.

A Depot Wrecked by Part of a Runaway Train.

LAFAYETTE, Ind., Sept. 27.—At 1:30 this morning a Lake Erie and Western freight train, eastbound, broke in two on a heavy grade, near town. The detached portion rushed back into the city. The Big Four passenger train from Chicago stood in the Union depot and Yardmaster Brighty seeing the danger, threw a switch saving scores of lives by turning the wild train onto a side track.

The detached cars, however, crashed into the Union depot, entirely wrecking it and forcing through South street into the Fottrell company's shoe factory. A cabdriver named Washburn was fatally injured. The passenger depot was thronged with people a few moments before the accident. Property loss, \$20,000.

## Another Fast Pacer.

GALESBURG, Ills., Sept. 27.—Owing to high winds John R. Gentry was not sent against Robert J's record yesterday. He was, however, driven an exhibition heat, and was speeded the last quarter, making it in 29 1-4 seconds, the last eighth in 13 1-4 seconds. Horsemen say they never saw a horse finish with such terrific speed and predict that Gentry will yet beat Robert J's record. Gentry has been shipped to Columbus, O.

## Two More Dead.

CRYSTAL, N. D., Sept. 27.—Besides the four killed in the threshing boiler explosion here Tuesday, two more have since died, while a third can scarcely recover. The six dead are: F. A. Banoger, Nick Phillips, Robert Hawthorne, Chris Behrens, Charles Shepherd and Alex Fran. Wallace Getty of Ashland, Wis., had his skull fractured.

## Inconsiderate Treatment.

She had bought a "general admission," and before the first act was over she slipped down to a place near the front and seated herself. Two minutes later an usher came down escorting a man. The man held the coupon to the seat she occupied, and the usher told her so. Then she gathered up her skirts angrily, picked up her parasol, which she had deposited against her neighbor's knee, wrathfully scrambled in front of the three people, and when she reached the aisle transfixed the man with an angry glance and muttered audibly, "What cheek some people have!"—Chicago Record.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.

## FACTORIES RESUMING.

The Cincinnati Commercial-Gazette Tells of the Business Revival Throughout the Country.

[Commercial-Gazette, Rep.]

The Portage Iron Works at Duncanville, Pa., has resumed operations in all departments. This resumption ends an eight months' strike among the puddlers, who have finally accepted the wages of \$2.75 a day, the rate first offered by the company. Five hundred and fifty men are given employment, promising to continue the year round.

The employees of the Consolidated Steel and Wire Company's works at Joliet, Ill., have been notified that the plant will be started up.

The works of C. Hammond & Son at Philadelphia, Pa., have started up after a long period of idleness.

The Coleman Hardware Company's works at Morris, Ill., began running on full time on the 23rd ult. For over a year the concern had been operating with a reduced force on half time.

The Carlisle Manufacturing Company of Carlisle, Pa., opened its car shops last week, after being shut down several months. About one hundred more men than were formerly employed will be placed on the pay-roll, making a total of 300 in this department alone.

The Birmingham and Gate City Rolling Mills at Birmingham, Ala., were started up last week, giving employment to about 1,200 men. Both of these plants have been idle for more than a year.

The glass factory in Avondale, the only factory in the suburb of the manufacturing town of Muncie, Ind., which has been closed down for several months, is to resume operations soon. Employment will be given to about 200 men.

The Southern Brass and Iron Company, of Knoxville, Tenn., reports a decided increase in business. The works are running at full capacity and the force of employees is to be increased.

The foundry plant of J. S. Dean, at East Bridgeport, Mass., is now running four instead of three days a week, as it has done for some months. Orders are reported to be coming in quite brisk.

## The State Treasury.

State Treasurer Hale says at the present rate of payments by the Sheriffs, the money necessary to pay the school fund, \$800,000, will be in the Treasury in due time. Over half that sum has already been paid in, and the settlements that will be made by the Sheriffs October 1st, will bring the amount up to the required sum. He thinks that by November 1st the general expenditure fund will be able to resume payment, and the work of paying off the stacks of claims that have accumulated in the Auditor's office will be commenced.

## Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by J. James Wood.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

## DELIGHTED!

We have everything to gain by trading on a narrow margin of profit. We could not fill our shelves with goods at the very lowest prices known in the market if we did not buy on a large scale, and we could not sell on a larger scale unless we gave the public the full benefit of our close buying. We love to make our discounts. Our business will grow steadily, because we give it close attention. We buy cheap; we can sell cheap. Try us, the people's grocers.
